

Second Place

O&G is one of the Northeast's leading providers of construction services and products. For over 90 years, O&G has completed some of the region's most challenging projects and established ourselves as a leader in our industry - and in the communities in which we live and work.

Founded in 1923, O&G has developed an extensive knowledgebase of construction project experience spanning various conditions and environments. We have successfully completed projects in settings ranging from healthcare, where the site must be kept clean, quiet and safe, to major highway interchanges where commuter traffic presents an uncontrollable variable that must be constantly managed.

O&G has consistently ranked as one of the country's top 400 construction companies for 50 years and we are one of the Northeast's largest construction companies. Our clients include some of the most well-respected brands in the region and throughout the world. Through our industry leadership, we are frequently asked to provide input into industry legislation and participate in industry roundtables.
